

PRESTAN AED ULTRA TRAINER

SKU: PP-AEDUT-101

The AED for training purposes. PRESTAN is the First and Only Universal AED Trainer with **2015 Guidelines Compliant and Upgradable.**

The PRESTAN AED UltraTrainer is equipped with a dual graphics pad and Prestan's unique Pad Sensing System, which automatically detects when each pad is placed on the manikin. This AED trainer can accurately simulate a live AED, allowing for a more realistic training class.

The pads are durable, lasting up to 100 applications, and do not leave behind that annoying sticky residue. Replacement is easy and affordable.

The PRESTAN AED UltraTrainer is the first and only universal trainer to have a child button that best simulates modern live AEDs, giving your students a realistic training experience.

The easy to use audio menu allows you to customize your training with options of automatic or semi-automatic shock, 5 training scenarios, and the ability to turn on or off the compression metronome and ventilation command.

Features:

- PRESTAN is the First and Only Universal AED Trainer with **2015 Guidelines Compliant and Upgradable**
- **Play/Pause Button**
- **5 Training Scenarios**
- Dual Graphic (Adult/Child) Training Pads
- Pad Sensing System
- Preconnected Pads
- Child Training Button
- Child AED specific voice prompts
- Automatic or Semi-Automatic shock simulation
- CPR Coaching, "Give Breaths" voice prompt
- Turn on or off compression metronome
- Turn on or off "Give Breaths" prompts
- Low Battery warning

PRESTAN PROFESSIONAL AED TRAINER PLUS PADS

SKU: PP-APAD2-4

PRESTAN Professional's high-performance training pads feature clear anatomical placement graphics and a long-life adhesive.

The pads are made of the same foam material used in live AED pads and conform well to all CPR manikins on the market today. The pad's silicone-based adhesive, coupled with their foam structure, ensure easy application and removal from your manikin.

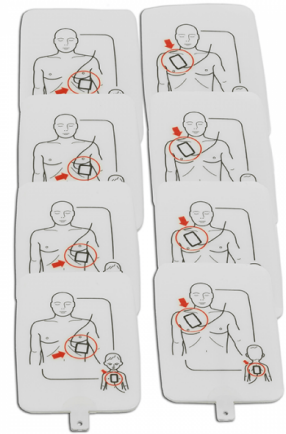

The manufacturer states that they are good for at least 25 sticks and release AED training skill sessions, but we've used them for many more than that! The AED training pads ship in a zippered plastic bag, but once connected, stay clean and protected in the unit's training pad case.

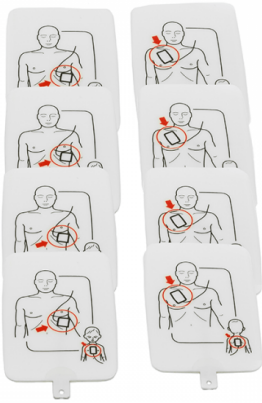

***Pads are for training purposes only and cannot be used to deliver a defibrillation shock.**

Features:

- Fits Prestan AED Trainers
- Includes pad sensor
- Easy and clean removal from manikins
- Works with any brand manikin
- Latex-free silicone adhesive
